

# Community Survey - Pangolins

## West Kalimantan, Indonesia

### For EWCL Class 9 - Planet Indonesia Project

## Demographics

*(ask at the end of the interview/survey except for observational data)*

What is your current age? (estimated by interviewer)

Which gender do you identify as? (as presented to interviewer)

How many people currently reside in your household?

Have you been part of a PI conservation effort? If so, how were you involved?

What is the household's main source of income?

## Pangolin Experience

Have you ever seen a pangolin? If yes, describe in more detail about the experience of seeing the pangolin.

Do you think there are more, less, or the same amount of pangolins than in the past?

*More Less Same Unsure*

If more or less: Why do you think that is?

What is your opinion of pangolins?

What are the benefits to living in areas close to pangolins? Why do you say that?

What are the challenges to living in areas close to pangolins? Why do you say that?

## Pangolin Values

Do you think pangolins need protection? Why?

**Follow up if yes:** what would help your community protect pangolins?

What do you see as beneficial about protecting pangolins?

What do you think would be difficult about protecting pangolins?

Who is responsible for pangolins?

## Pangolin Rules and Behaviors

Does anyone in your area hunt wildlife?

**Follow up if yes:** Who hunts (locals, outsiders)? What animals do they hunt?

Do you think pangolins are hunted?

**Follow up if yes:** why do you think pangolins are hunted?

Are there any rules about hunting pangolins? If so, what are they?

**Follow up if yes:** Should there be different rules?

If someone were to catch a pangolin while hunting, how likely would they be to:

Release the animal back into the forest?

*No*    *Not Sure*    *Likely*    *Yes*

Keep for personal use?

*No*    *Not Sure*    *Likely*    *Yes*

Keep to sell part or all of the animal?

*No*    *Not Sure*    *Likely*    *Yes*

Do you want to expand on any responses?

What does your community think about pangolin hunting and the people who do it?

Do you consider trapping and killing pangolins to be morally/ethically permissible?
